(If current x-rays are available, please mail, email or send the with the patient)

Welcome : a message from Dr. Silvera

I am looking forward to meeting you personally. Santa María Periodontics provides comprehensive periodontal services including treatment of gum disease, cosmetic procedures, and dental implants.

My staff and I are committed to ensuring your comfort and successful treatment in a pleasant, state-of-the-art practice. After a thorough review of your needs, goals, and desires, I will discuss with you the diagnosis, treatment options, prognosis, fees, and estimated time required for your treatment.

A little about me: I am a graduate of the Mayo Clinic Advanced Educational Program in Periodontics and also hold a PhD in Immunology from the University of Rochester. After completing all of my education I started practicing in Arizona, then four years later I made my move to California and have been practicing on the Central Coast since 2005.

My staff and I are here to support you as a valued patient. We are committed to assisting you in maintaining healthy teeth and gums for a lifetime

.....
